## JNANADEEPA SENIOR SECONDARY SCHOOL, JAVALLI

### Annual Report 2021-22

*"The highest education is that which does not merely give us information but makes our life in harmony with all existence". -----Rabindranath Tagore*

Respected dignitaries, esteemed guests, dear parents, well-wishers and beloved students,

It's truly a matter of immense pleasure and great honour to present the annual report of our prestigious institution JNANADEEPA SENIOR SECONDARY SCHOOL, JAVALLI, SHIVAMOGGA, situated amidst extremely exhilarating and refreshing surroundings with a total strength of nearly 2053 students from I to XII class. This year our school saw its opening in the virtual mode. Although, the academic year 2021-22 was unexpectedly a testing year for everyone, due to worldwide pandemic COVID-19, it introduced uncertainty into the major aspects of national as well global platforms especially for schools. Yet, our school kept striving to achieve its desired goals. Technology played a significant role to help in the Teaching-learning process during school closures.

This is a hard fact that EXCELLENCE IN ACADEMICS is the hallmark of a good institution. In that case, our institution is heading towards the higher levels of accomplishments in a commendable manner. Besides excellence in academics, co-curricular activities have an important role to play in the holistic development of students. Eventually, multiple kinds of virtual activities were organised throughout the year especially during the lockdown situation to help the youngsters to engross themselves in various activities and showcase their hidden talents. Students, staying home from school, didn't completely disrupt the learning process.

Change is inevitable and progress is impossible without change. Our team of teachers rounded up some of the best educational online activities to keep students of all ages engaged in learning while they were away from the classroom. Teachers had to quickly adapt to the transfer of lesson content planned for physical classes to an online or a remote format. Activity based curriculum was adopted by our vibrant teachers to make learning, fun. Doing this successfully requires a different set of skills, and so teachers had to brush up their technological skills and learn virtual tools. Teachers responded positively to our inputs on digital skills and learning virtual tools. They proactively asked for help and practiced strategies for making learning-teaching accessible to their students. Whether it was learning to join a link for an online meeting, taking online classes, recording videos and audios, or using google forms, teachers took ownership of their own learning.

The offline classes resumed for classes 1 to 12 in the month of August 2021, since the closure due to the pandemic.

Jnanadeepa has always provided its students with a healthy, competitive and enriching environment to help them grow holistically, be it academics, sports or any other extra-curricular role. It is our prime duty to provide them with ample opportunities so that they realise their true potential and get ready to face the world.
